HOBBIES AND INTERESTS

Sport

I've been practicing **judo** competitively for several years.

Together with my partner, I'm part of the **Italian national team**, with which I qualified for the *European Judo Championships Kata Riga 2025*, the *World Judo Championships Kata Paris 2025*, and the *European Judo Championships Kata Sarajevo 2026*.

Development and Open Source

I'm passionate about **Open Source**: I develop personal projects and contribute to numerous other projects.

One of my projects is a self-developed electronics board (*Z80DevBoard*) that combines a Z80 processor with an RP2040 microcontroller, designed entirely in KiCad. Another project is *Freelideas*, a web platform for sharing ideas built with Next.js and React.

I'm particularly interested in low-level development and the relationship between hardware and low-level software.
